NVV2002439696 ROSS DRAW UNIT #042 @ 30-015-42945

Mr. Raley,

The OCD has denied the submitted Closure Plan C-141 for incident # NVV2002439696 ROSS DRAW UNIT #042 @ 30-015-42945 for the following reasons:

- Horizontal delineation/remediation will need to be completed. The edges -horizontal definition- of a liquid release must be determined. A visual footprint on the surface is not sufficient or adequate to assess the horizontal extent of the release. Lab data must be provided as evidence of delineation/remediation efforts. The values for determination of horizontal impact are derived by either "background" value as determined appropriate to Rule 29, or, for chloride, 600 mg/Kg in soils.
- No further action is necessary on the pasture area.

The Denied C-141 can be found in the online image file. Please review and make the required correction prior to resubmitting through the fee portal.

Thank you,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
