04-07-2020

Denied work plan/deferral - release is in high karst and has depth to ground water at 35ft. Containment must be excavated to closure criteria for 600 mg/kg Chloride levels. SH sample will need to be further sampling below 1' since at 1' chloride levels are over 600 mg/kg.

To Whom it May Concern,

Please find the attached Work Plan for the Showstopper 19 004H & 005H (2RP-5703) release that occurred on April 7, 2020. This Work Plan was uploaded to the NMOCD portal today. Please let me know if you have any questions.

Thank you,

Brittany N. Esparza
