NCE2003550956 SAND DUNES 34 FEDERAL #2 CTB @ H-34-23S-31E 0N 0E

Mr. Dittrich,

The OCD has approved the Remediation Plan for incident # NCE2003550956 SAND DUNES 34 FEDERAL #2 CTB @ H-34-23S-31E 0N 0E with the following conditions of approval:

- The Depth to groundwater has not been established. When nearby wells are used to determine depth to groundwater, the wells should be no further than ½ mile away from the site, data should be no more than 25 years old, and well construction information should be provided. If OXY chooses not to drill a borehole to confirm the depth to groundwater, this site must be remediated to meet the Closure Criteria in Table 1 for groundwater at a depth of 50 feet or less.

The signed C-141 can be found in the online image data base under the incident #.

Thank you,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
