OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

To Whom it May Concern,

Please find the attached Initial and Final C-141 for the COG Diamondback 22 state Com 004H (NRM2020922085) release which occurred on 7/15/2020. The Initial and Final C-141 was originally submitted to the NMOCD District 1 Office / NMOCD webpage on July 23, 2020. COG is requesting that you review this Initial and Final C-141.

Thank you,

Brittany N. Esparza

Subject: (Initial-Final C-141) Diamondback 22 state Com 004H (30-015-40816) 07-15-2020

To Whom it May Concern,

A final inspection has been conducted regarding the clean-up efforts made at the above mentioned lined facility. Free fluids were removed and if present the impacted gravel was removed from the liner and taken to a NMOCD approved disposal facility. The liner was inspected for damage and found to have liner integrity to contain free fluids. Please see the attached Final C-141 and pictures taken during the final inspection conducted by a COG HSE representative.

Thank you,

Brittany N. Esparza
