RE: Incident #**NRM2029646692**

Chase,

Your request for an extension to **April 30th, 2021** is approved. EOG Resources, Inc. requests an extension to April 30, 2021, for the Characterization Plan to the below listed incident. EOG Resources Production Department finished removing the equipment at the battery on March 18, 2021, and the first sampling within the battery is scheduled to occur, March 22, 2021. After discussing the project with the environmental consultant, Ranger Environmental Services, they believe they can complete the sampling within the battery and have the Characterization Plan completed by April 30th, unless a core rig needs to be scheduled to complete delineation.

Subject: [EXT] Extension Request (Donahue Federal SWD #1- NRM2029646692)

Mr. Hamlet,

EOG Resources, Inc. respectfully requests an extension to April 30, 2021, for the Characterization Plan to the below listed incident. EOG Resources Production Department finished removing the equipment at the battery on March 18, 2021, and the first sampling within the battery is scheduled to occur tomorrow, March 22, 2021. After discussing the project with the environmental consultant, Ranger Environmental Services, they believe they can complete the sampling within the battery and have the Characterization Plan completed by April 30th, unless a core rig needs to be scheduled to

complete delineation.
