Well I am going to submit a work plan do to their insurance company and if approved fairly quick I can get the job done within the 90 days I am positive unless weather or other circumstances out of my control happen but yes extension would help.

Thank You,

Chris Jones

We are still within the 90 days to clean this up. Spur filed an insurance claim on this and are wanting an approved work plan. I still have 2 areas that aren't delineated I was going to get as the project progressed. So my question was even though I have those 2 spots, my plan is going to address these and we will find where it cleans and get confirmation samples, I just don't want to submit a plan without you knowing I will get these and have you deny the plan because of it.

Thank You,

Mr. Hensley,

I was curious to see if you were by chance assigned to Incident ID NAPP2113931748? If not would you happen to know who it was assigned to?

Thank You,
