Subject: [EXTERNAL] Extension Request - NRM2010837524

CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments.

Good afternoon, Mr. Hamlet,

We are working on a soil remediation project now and are using bioremediation under an approved work plan. We have been given a deadline of November 14, 2021 for this project and would like to request an extension as the lab data we just received indicates microbes need more time to get to closure criteria.

We have achieved an 85% reduction thus far and anticipate being below closure criteria in 60 days.

Please give me a call if you have any questions.

Thanks,
Zach
