Good afternoon,

EOG Resources, Inc. respectfully requests an extension to February 21, 2022, for the Characterization/Remediation Plan for the below site.

The site is a plugged and decommissioned site with historical impacts that are being addressed in

conjunction with the reclamation of the location. Delineation activities have been completed and remediation is underway at the site, therefore the consultant believes they will have confirmation sampling completed by January 21, 2022, and have the Closure Report completed for submission by February 21, 2022.
