Natalie,

Your request for a 2nd extension for completion of this project is approved to 09/08/2022. Please be aware that this will be the final extension for this project.

Thank you,

Mike,

As per our conversation today, Taprock and ESS would like to request a 30-day extension for the Prometheus Frac Line release that occurred on 03/07/22 (NAPP2206666393). With the issues discussed concerning Nova Compression (company who caused the release) and their insurance company, we cannot make the deadline of August 8th. ESS has fully delineated, excavated, conducted composite sampling, and have hauled in the backfill to a near by location, the only item left is to backfill the excavation.

Thank you for your consideration in this matter.
