Chris,

In this instance only, OCD does approve a variance to sampling event notification as required in 19.15.29 NMAC. Please proceed on your current schedule.

Thank you,

Mike,

We have an open excavation for this project awaiting confirmation sample results, I just realized that the 48-hour notification was not sent. These samples were obtained on 8-17-22, we have not received the report on these yet. Does the State wish for us to set up a new date in order to give you the opportunity to come and witness the event or will the State accept these sample results?

Thank You,

Chris Jones
