Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Chevron USA Inc. submits for your approval a change of plans for the surface installed 2 7/8" steel pipeline for the subject well as part of the October 2000 approved APD to drill the well (previously submitted by Texaco Exploration and Production Co., Inc). Since the pipeline will operate at a maximum pressure of 75 psig, it is propped to surface install 3" SDR 7 polyethylene pipe rather than the steel pipeline for corrosion resistance.

The new pipeline will be located parallel to the road and within the October 2000 approved stipulations and will not disturb additional surface.

14. I hereby certify that the foregoing is true and correct
