**RE: Shut-in order for Samson Resources' Loving '1' State #3, located in Unit E of  
Section 1, T-23-S R-27-E, 1980' FNL & 660' FWL in Eddy Co., New Mexico. API #  
30-015-32446**

Dear Sirs/Madams,

In reference to the above, Samson Resources Company is to shut-in said well on Friday, April 11<sup>th</sup> 2003, unless information is received, for failure to comply with the New Mexico Oil Conservation Division's (NMOCD) Rules and Regulations. On March 21<sup>st</sup>, 2003 an unsuccessful request was made by phone for a series of subsequent reports after spud and a notarized well deviation report. A follow up call was made on April 2, 2003 additionally failing to bring any response. Please refer to NMOCD's Rule 1103, specifically Rule 1103.D, and Rule 111.3 for further clarification to this matter.

Respectfully Yours,

Bryan G. Arrant

Mona,

Please review the C-103, a subsequent report submitted by another operator, that provides the details the OCD is looking for. Again, Rule 1103.D goes into detail what is to be provided to the OCD for reporting purposes. Since your company did not provide this information in a timely basis as required, you may include all casing details on one C-103.

Please call if you have any questions.

Bryan Arrant
