NATURE OF RELEASE

Type of Release Treated Produced water	Volume of Release 35bbls	Volume Recovered 0bbls
Source of Release Water Transfer Line	Date and Hour of Occurrence 5/19/2015 8:30 pm	Date and Hour of Discovery 5/19/2015 8:30 pm
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Heather Patterson-NMOCD Jeff Robertson-BLM	
By Whom? Sheldon Hitchcock-Talon/LPE	Date and Hour 5/20/15 11:12 am	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

A temporary 12" transfer line developed a leak which caused a release of approximately 35bbls of treated produced water. When the leak was discovered the line was repaired and put back into service. Talon/LPE mobilized personnel to conduct an initial site assessment and perform soil sampling activities within the impacted area.

Describe Area Affected and Cleanup Action Taken.*

The impacted area is in the pasture just north of CR-227 and measures approximately 110' x 110'. Talon/LPE mobilized personnel to conduct an initial site assessment and perform soil sampling utilizing a backhoe. Upon receipt of analytical results from the soil sampling activities a remediation work plan was generated and subsequently approved by NMOCD and BLM. Excavation activities proceeded on the site, in accordance with the approved work plan. Once excavation activities were completed, all of the excavated material was hauled to an NMOCD approved solid waste disposal facility. The area was backfilled with top soil, contoured to match the surrounding terrain and seeded with BLM #4

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
