**Subject:** Minor Modification to pit permit: Murchison - War Horse Fed #2H  
**Attachments:** WH2hModif\_03.30.16.pdf

Heather and Mike:

In response in OCD's denial of the recent slope variance request, please find the attached minor modification for the **War Horse Fed Com #2H** temporary pit (permit #2-13-0026) which includes a re-design of the pit. As originally approved, this design includes a 1.5H:1V slope for *only* the suction walls of the pit but the overall size has been reduced to fit completely on the pad. Please contact me or Randy with any questions. Thank you.
