NATURE OF RELEASE

Type of Release Produced fluids	Volume of Release 15 bbls	Volume Recovered 12 bbls
Source of Release Flow line	Date and Hour of Occurrence 1/19/2010	Date and Hour of Discovery 1/19/2010 8:00 am
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Mike Bratcher - OCD	
By Whom? Gail Lamb	Date and Hour 1/19/2010	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse. N/A	

If a Watercourse was Impacted, Describe Fully.*

N/A

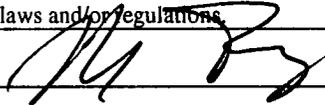

Describe Cause of Problem and Remedial Action Taken.*

A flow line ruptured and leaked releasing produced fluids into the pasture. The ruptured flow line was replaced with a new flow line.

Describe Area Affected and Cleanup Action Taken.*

Tetra Tech inspected the site and collected soil samples to define spills extents. Once defined, a work plan was submitted to the NMOCD for approval. As approved, the impacted soils were removed to the appropriate depths and hauled to proper disposal. The excavation was backfilled with clean soil to grade. Tetra Tech prepared closure report and submitted to NMOCD for review.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
