13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Beach had several producing wells in the WHL unit that were operated with ground electrical lines. Those lines were recently stolen and our oil production is down 300 to 500 BOPM. The theft was reported to the local authorities. Wells affected are WHL unit #s 19, 20, 24 and 26.

Beach has contacted Dixie Electric and is planning to install electrical pole lines in the affected area to get these wells producing again. These lines will cover approximately 6,550 linear feet which will take approximately 22 poles that will be installed within 15 feet of the center line of existing roads and ROWs. Attached is a plat of the WHL unit showing existing wells, roads, ROWs and existing electrical pole lines. The proposed routes for the new electrical poles are shown in gray highlight. Dixie Electric has said that they could get to this work as soon as we have BLM approval.

14 I hereby certify that the foregoing is true and correct
