Yates Petroleum Corporation wishes to extend the captioned well's APD expiration date for one (1) year to
June 07, 2006.

Sources at Yates Petroleum Corporation have relayed information to me that
they believe there will not be enough H2S anticipated from the surface to the Ordovician formation
to meet the OCD's minimum requirements for the submission of a contingency plan per Rule 118.
The State Engineers Web Site has been accessed for the captioned well. Information obtained from this web
site determines the Site Ranking for this well is 10 points. With this ranking score capping and encapsulation
will take place at pit closure.
Thank you,

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☐, a general permit ☒ or an (attached) alternative OCD-approved plan ☐.
