Operator,

A Final Report has been prepared and submitted by your agent, SESI, to the NMOCD District 2 Office. The report outlines remediation actions taken on a produced fluids release that occurred at the above referenced well site on 2/13/2005. The report is accepted as presented. Please submit a C-141 marked "Final Report" as this was not included in the material submitted.

Please be advised that acceptance of a Final Report, Closure Plan, and/or Final Report C-141 does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, acceptance of a Final Report, Closure Plan, and/or Final Report C-141 does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Sincerely,

A handwritten signature in cursive script that reads "Mike Bratcher".
