Additional Comments:

Devon Energy Production Company L.P. plans to close the drilling pit on the Eagle 34 A Federal #49 as per New Mexico Oil Conservation Division Rule 50 in the Pit and Below Grade Tank Guidelines. Devon plans to encapsulate the pit contents and liner capping with 20 mil liner, then cover with 3' of native material capable of supporting native plant growth. We will contour the pit area to prevent erosion and ponding of rainwater.  
We will notify the OCD 48 hours prior to beginning. Work.

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that the above-described pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☒, a general permit ☐, or an (attached) alternative OCD-approved plan ☐.
