RE: Inspection No. iGEG0515436316

Gentlemen:

In regards to the referenced Inspection and Notice of Violation on the White Plains #1 well, please be assured that I fully intend to comply with the rule and regulations of the OCD.

Due to the difficulty of getting a pulling unit to P & A the well, I am forced to delay such action until one becomes available.

I have been told it may be another month or so from the above date before a pulling unit becomes available, at which time I intend to P & A the well as described on Form C-103, previously filed.

Sincerely,

Fred F. Pool, III
Operator

NOTICE OF VIOLATION - Inactive Well(s)

Dear Operator:

A review of our records and recent inspection(s) indicate that the subject well(s) has been shut-in for an extended period of time. Rule 201 of the Rules and Regulation of the Oil Conservation Division provides that a well may be shut-in no longer than sixty days after suspension of drilling operations, upon determining that the well is no longer usable (e.g., a dry hole), or one year after last production. To comply with guidelines as established in the Rules and Regulations, corrective actions must be taken immediately and the well(s) brought into compliance.

The detail section below indicates preliminary findings and/or probable nature of the violation.

The following options are available:

1. Immediately restore the well(s) to production, injection or disposal as applicable.
2. Request 'Temporary Abandoned' status pursuant to Rule 203, which requires that you set a plug and conduct a mechanical integrity test.
3. Submit a proposal to 'Plug and Abandon' the well(s) pursuant to Rule 202, proceed with plugging procedures on a timely basis after the proposal has been evaluated, amended and/or approved.

In the event that a satisfactory response is not received to this letter of direction by the "Corrective Action Due By:" date shown above, further enforcement will occur. Such enforcement may include this office applying to the Division for an order summoning you to a hearing before a Division Examiner in Santa Fe to show cause why you should not be ordered to permanently plug and abandon this well. Such a hearing may result in imposition of CIVIL PENALTIES for your violation of OCD rules.

IDLE WELL INSPECTION DETAIL SECTION

WHITE PLAINS 001	C-21-11S-28E	30-005-60427-00-00	Inspection No. iGEG0515436316
Inspection Date:	6/3/2005 10:05:10 AM	Corrective Action Due by: 9/6/2005	
Type Inspection	Inspector	Violation?	*Significant Non-Compliance?
Routine/Periodic	Gerry Guye	Yes	No
Comments on Inspection:	Idle Well (Rule 201). Last production reported Oct 2003. Open lined, fenced workover pit.		

Thank you for your prompt attention to this matter and your efforts in helping to protect our environment and the infrastructure of the oil and gas industry.

Sincerely,

Artesia OCD District Office

* Significant Non-Compliance events are reported directly to the U.S. Environmental Protection Agency, Region VI, Dallas, Texas.
