13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the bond No. on file with the BLM / BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

NMOCD
JR Dade 2/14/13

Apache Corporation would like to request a variance from the approved interim reclamation that was submitted along with the APD. The interim reclamation plat showed that we were to remove a small area located on the NW and NE corner of the pad by 70'. Due to the fact that we have three access roads into this location instead of the one originally stated, which the extra road go to other wells on the lease, we will need to keep the NE section of the pad open. The approved plat showed the location to be 225x270, but was built as 225x256. Apache would like to request that we reclaim the northwest corner by 77 to north and 43 to west as well as take 88' from the southwest corner. Drawing attached.
