13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomple in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Mewbourne Oil has an approved APD for the above captioned well. After further geological review. MOC is requesting to amend the setting depth of the 9 5/8" 36# J55 casing from 2650' to 2825'.

If you have any questions please call Levi Jackson.

James Rutley
Bureau of Land Management
620 E. Greene St.
Carlsbad, NM 88220

Mr. Rutley,

Mewbourne Oil Company is requesting an exemption from cased hole logging on the Ruger "31" MP Fed #1H. After geological review and due to close proximity to an existing well with cased hole logs, there should be no geological deviation between the two wellbores.

This well 612' from the Ruger "31" Fed #1. MOC ran open hole logs on Ruger "31" Fed #1 in January 2005. The surface location footages are as follows:

Ruger "31" MP Fed #1H
715' FSL & 50' FWL
Sec 31, T19S, R29E
Eddy Co., NM

Ruger "31" Fed #1
660' FSL & 660' FWL
Sec 31, T19S, R29E
Eddy Co., NM

Thank you,

Levi Jackson
Mewbourne Oil Company
