If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*

Failure to get a load from the tank caused an overflow and 59 bbls of produced water leaked onto the ground. 51 bbls of produced water were recovered via vacuum truck.

Describe Area Affected and Cleanup Action Taken.\*

Failure to get a load from the tank caused an overflow and 59 bbls of produced water leaked onto the ground. 51 bbls of produced water were recovered via vacuum truck. Further remediation will be performed in accordance with a NMOC D and BLM approved remediation plan.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOC D rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOC D marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOC D acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
