If a Watercourse was Impacted, Describe Fully.\*

**RECEIVED**  
MAR 27 2014  
NMOCD ARTESIA

Describe Cause of Problem and Remedial Action Taken.\*  
A rupture in a gas line caused a fire that melted several poly lines releasing oil and produced water over 9,274 square feet of pasture land. None of this fluid was recovered. The lines were shut down and repaired.

Describe Area Affected and Cleanup Action Taken.\*  
The site will be assessed and then remediated to NMOCD and BLM regulations.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
