13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

OXY USA INC respectfully request permission to change the location of the CTB that the production of the above-mentioned well will be sent to. The permits showed that the CTB would be located on the Osage 18 Federal #1H well, but it will now be sent to the Seven Rivers 17 Federal #1 (30-015-33430), located in Sec 17 T20S R25E. Attached are the correct flowline routes and the corrected pad layout for the above mentioned well. Should you have any questions or need additional information, please feel free to contact me at any time.
