Gentlemen:

Your Application for Permit to Drill (APD), approved November 23, 2011, for the Drickey Queen Sand Unit #703, (SHL: 10 FNL & 1309 FEL) Section 10, T14S R31E Chaves County, NM. Federal lease LC-068474 has *expired* November 23, 2013 because drilling has not commenced within two years of the approval date.

If drilling operations have commenced on the referenced well prior to expiration, contact Robert Hoskinson at (575) 627-0218 and send all necessary reports (spud, casing/cementing, etc., 1 original and 5 copies) so we may correct our records.

If the well has not been spudded, but site construction activities have occurred, please contact Harley Davis – Natural Resource Specialist at (575) 627-0247 hcdavis@blm.gov for surface reclamation instructions.

If you wish to drill this well at a later date, please submit a complete application (1 original and 5 copies). Since the original APD has expired, the resubmitted APD will be subject to all of the processing requirements including the 30-day posting requirement. Please note on the resubmitted APD that it was previously approved and we will review the expired file for information which *may* expedite the processing.

Sincerely,

Angel Mayes
Assistant Field Manager,
Lands and Minerals
