	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

The rig crew was attempting to install the wear bushing in preparation to run intermediate BHA in the hole. They could not get the wear bushing to pass through due to a large piece of rubber element sticking out from the Annular Preventer. We believe this element got damaged while pulling the test plug though it once BOP test was completed. They were able to replace the rubber element without removing the stack.

Received verbal approval from Ed Fernandez and Wesley Ingram-BLM to re-test just the BOP stack instead of the entire system.
