Describe Cause of Problem and Remedial Action Taken.*

The release was caused by an open valve. Once the issue was discovered the valve was closed and vacuum trucks were dispatched.

Describe Area Affected and Cleanup Action Taken.*

The release occurred within a lined facility. Once all standing fluid was recovered and disposed of at an NMOCD approved facility the gravel was replaced.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
