NM OIL CONSERVATION

If a Watercourse was Impacted, Describe Fully.*

ARTESIA DISTRICT

DEC 19 2014

Describe Cause of Problem and Remedial Action Taken.*

RECEIVED

A frac tank overflowed being utilized in conjunction with tester. Well was taken out of test and vacuum trucks were dispatched to pick up standing fluid.

Describe Area Affected and Cleanup Action Taken.*

The release area was on lease pad and approximately 1500 square feet of pasture south of the lease pad. The area was mapped and surface samples were collected.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
