Describe Cause of Problem and Remedial Action Taken.* Temporary tank ran over and spilled 20 bbls of oil into lined containment. Tanks were switched to prevent continued overflow.		
Describe Area Affected and Cleanup Action Taken.* 20 bbls of oil were spilled over into a 40'x100' lined containment. All 20 bbls were recovered via vacuum truck provided by Contract Trucking Company on November 23, 2014. Then liner was then examined and found to be intact.		
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
