Describe Cause of Problem and Remedial Action Taken.*

On March 30, 2015 9:30 AM the Lease Operator noticed over spray in the pasture near the TNT 6 Fed Com 1, upon further investigation he discovered the poly line going from the TNT 6 Fed Com 1 to the TNT 6 Fed Com 2 had possibly been shot and caused a release in the pasture of 1/2bbl mixed oil and produced water.

Describe Area Affected and Cleanup Action Taken.*

The affected area is approximately a 100x100 area in the pasture located northwest of the lease road leaving the TNT 6 Fed Com 1. The surrounding vegetation will be pressure washed with Dawn soap.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
