If a Watercourse was Impacted, Describe Fully.* N/A		
Describe Cause of Problem and Remedial Action Taken.* The water pump wasn't working and in return the water tank ran over. The water pump had an electrical failure that has been repaired and it has been returned to service.		
Describe Area Affected and Cleanup Action Taken.* Tetra Tech inspected and collected samples to define spills extent. The TPH and BTEX were below the RRAL and the chloride concentrations did not show a significant impact to the soils. Based on the results, no remedial action was performed at the site. Tetra Tech prepared closure report and submitted to NMOCD for review.		
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
