Describe Cause of Problem and Remedial Action Taken.*
Internal corrosion on 2x4 swage on circulating line on back of oil tank. Removed and replaced all old or bad fittings on line.

Describe Area Affected and Cleanup Action Taken.*
Area around tanks inside firewall, leak was discovered around 8:01 A.M. on 9-29-2015. No leaking evident on previous day. All fluid was contained inside firewall, vacuumed and hauled off all standing fluid. Well follow up with further clean up.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
