This well was plugged and abandoned on 6/2/2011 due to stuck pipe. Rig was skidded 50 feet to the East on the same location pad and the Snapping 2 State #1Y was drilled and completed on 8/8/2011, (30-015-39104). A dry hole marker was placed 3 feet below surface above cemented cellar and buried (picture attached) on 9/14/2015.

This location cannot be reclaimed as the #1Y well is located on the same well pad and is currently active. Request to update records as compliant. Thank you.

locate dry hole marker on edge of pad to
notify of Buried dry hole marker
