13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomple in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

MOC would like to make changes to the interim reclamation & facility diagram. MCO would like to install a facility on this location due to not having enough room on the Zircon 12/7 BC Fed Com #1H location to operate in a safe manor. MOC will utilize the flowline route for a gas line, the route & pressure will remain the same as approved in the original APD. Please see attached diagram for the facility & call Bradley Bishop with any questions.

Bond on file: NM1693 nationwide &amp; NMB000919
