13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Apache is requesting permission to temporarily flare up to 7 million mcf a day on the Crow Federal Battery for 90 days from 09/09/2014 - 12/08/2014 due to Frontier's pipeline capacity. Some gas is going through the pipelines so it is averaging less than 4-5 mcf a day but we are requesting more in case Frontier should ever have a full shut down on this battery. Gas will be measured prior to flaring.
