OXY USA Inc. respectfully requests approval for the following changes to the approved APD.

Change the intermediate casing setting depth to approximately 7690' MD 7580' VD. It was originally approved to be set @ 8276' MD. This request is to avoid having to round trip for new BHA. The DV tool and ACP will remain at the same depth and the cement volumes will remain unchanged from what was previously approved.

Chris Walls approved change per e-mail on 12/1/15.
