RE: Hinkle B #5- Post-abandonment field examination on November 7, 2001

Nadel and Gussman Permian requests permission to leave the three power poles serving the No. 5 well in place for now.

1. We are evaluating plans to eventually drill a replacement well North of the No. 5 location. We will need the line to supply power.
2. In the future, this well will probably be converted to a pressure maintenance well. We will set a triplex pump at the location.
3. This is still an active lease and it will be much cheaper and safer to remove them when the rest of the poles are salvaged.

14. I hereby certify that the foregoing is true and correct
