Bryan,

Yesterday I mailed you the H2S plans along with new Vicinity maps from the surveyor on the subject wells. This morning I received plats from the surveyor - they went out there on Monday and surveyed the closest water well and closest dwelling (with distances surveyed) for each well. I just wanted to let you know that I was putting those in the mail today.

There is a house 845' to the SE of Well #1H and a water well 770' to the SE of the surface location. P-13-15-25
There is a house 863' to the SE of Well #2H and a water well 519' to the SW of the surface loaction.

Thank you,

Ann Ritchie
