Bryan,

Yesterday I mailed you the H2S plans along with new Vicinity maps from the surveyor on the subject wells. This morning I received plats from the surveyor - they went out there on Monday and surveyed the closest water well and closest dwelling (with distances surveyed) for each well. I just wanted to let you know that I was putting those in the mail today.

There is a house 845' to the SE of Well #1H and a water well 770' to the SE of the surface location.

There is a house 863' to the SE of Well #2H and a water well 519' to the SW of the surface location. N - 13-15-25

Thank you,

Ann Ritchie

Dear Bryan,

Please see attached the plats I contacted you about that designate the closest dwelling and water wells to the wells as referenced above.

Please let me know if you need any further information or documentation pertaining to the permit to drill for each of these wells. Thank you.

Yours truly,

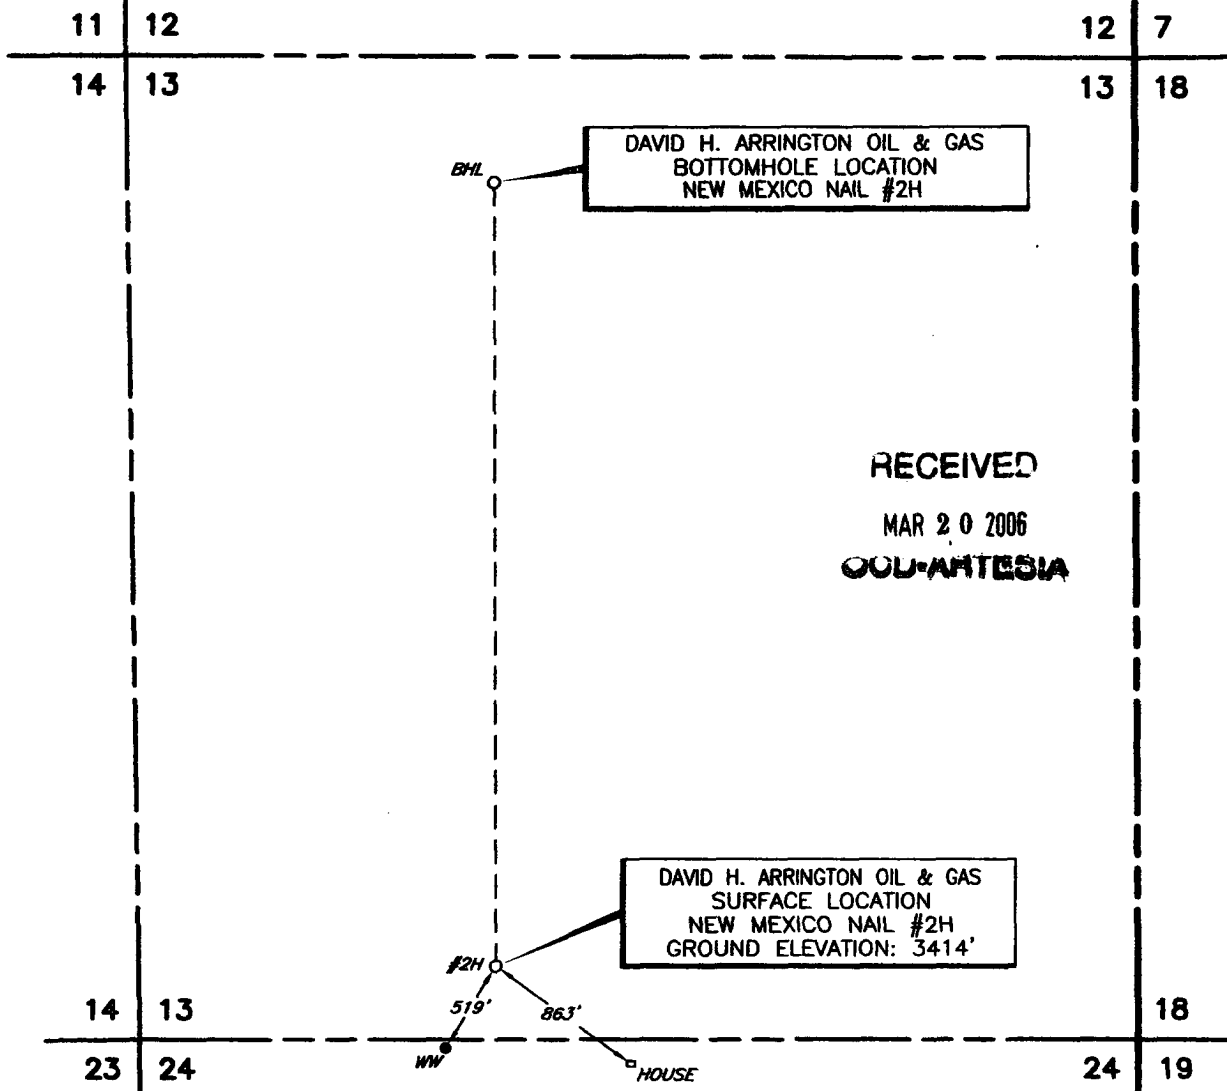

Ann E. Ritchie, Regulatory Agent
