Debbie / Duncan,

I am looking into an old well, the Sand Tank 7 Fed 3H. The original APD (30-015-34290) was approved 8/17/05, but I believe it expired before the well was drilled. A resubmitted APD (30-015-35956) was approved 11/24/07 and the well was spud 12/9/07.

Can you confirm that the original APD expired. We are trying to clear up a reporting discrepancy as to which api number to use. I believe 35956 is good, but need to verify.

Thanks,

Stan Wagner
