13. Describe Proposed or Completed Operation. Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

With the new ownership of the Arave Plant, IACX plans to lower line pressure by the end of Nov 2017. Plans are to test the well with lower LP. Lease clean up to remove junk and old tanks will commence by the end of November.

12-1-17
Accepted for record - NMOCD

This well currently has a P&A approval. If operator wishes to produce the well conduct a CIT to max treating pressure and submit results to the BLM. Contact BLM 24 hours prior to CIT 575-361-0106.
