If this is a pit closure: (1) Attach a diagram of the facility showing the pit's relationship to other equipment and tanks. (2) Indicate disposal location: (check the onsite box if you are burying in place) onsite offsite. If offsite, name of facility: N/A (3) Attach a general description of remedial action taken including remediation start date and end date. (4)  Groundwater encountered: No offsite offsite, name of facility: N/A (3) Attach a general description of remedial action taken including remediation start date and end date. (4)  Groundwater encountered: No offsite offsite, name of facility: N/A (5) Attach soil sample results.  (5) Attach soil sample results and a diagram of sample locations and excavations.  Additional Comments: Closure work plan for workover pit. The workover pit contents will be excavated and hauled to an OCD approved soil waste facility.  The excavated area will be backfilled to within 3' of grade. A 20 mil. Synthetic liner will then be placed over the excavated area with a minimum of a 3' over lap of the underlying trench areas.  The excavated area will be backfilled to grade using a minimum of 3' of clean soil and like material. A one call and a 48 hour notice will be provided to the Oil Conservation Division.  Pit Closure start date: N/A. Final closure date: N/A.
