13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

This well has valuable up hole recompletion potential. Requesting approval to Temporarily Abandon this well and recompleat uphole in 2019 or 2020. Only requesting 2 year TA status. If well fails MIT, contingency plan is to plug and abandon this well immediately following failed MIT. Requesting that the included plugging procedure be reviewed and COAs provided so there is no delay in plugging this well in the event of a failed MIT.

EOG Y Resources, Inc. plans to temporarily abandon this well as follows:

1. MIRU any safety equipment as needed. POOH with all production equipment.
2. RIH with GR/JB to 7820 ft.
3. Set an RBP at 7800 ft. Load hole with plugging mud.
4. Conduct MIT and chart for the BLM & NMOCD.
