RE: <u>Administrative Order SWD-1600; Second Extension of Deadline to Commence</u>
Injection

Uber North SWD Well No. 1 (API 30-015-43805)

Unit B, Sec 15, T23S, R31E, NMPM, Eddy County, New Mexico

Order Date: November 20, 2015

First extension to commence injection issued November 10, 2018.

Injection into Devonian formation; permitted interval: 16500 feet to 17500 feet

Dear Ms. Davis:

Reference is made to your request on behalf of Mesquite SWD, Inc. (the "operator") to extend the deadline stipulated in order SWD-1600 based upon the approval date of November 20, 2015, to commence injection for the above referenced well for an additional one year for reasons outlined in the attached correspondence. Previously, the order was approved for a one-year extension to a new deadline of November 20, 2018. The recent request for the additional extension was received by the Division on September 27, 2018, prior to the expiration of the first extension.

It is the Division's understanding from your request that there have been no significant changes in the information provided in the application submitted for review and approval of this order. These changes include the completion of new wells within the Area of Review that penetrated the approved injection interval and any changes in ownership.

The Division finds that granting this request to extend this administrative order is in the interest of conservation, will prevent waste, and will protect the environment. This delayed issuance of this extension by the Division also serves to ensure continuity of the authority to inject established in administrative order SWD-1600.

The deadline to commence injection for the existing order is hereby extended until November 20,

SWD-1600: Second Extension of Deadline to Commence Injection Mesquite SWD, Inc. January 17, 2019 Page 2 of 2

2019. All requirements of the above referenced administrative order and agreements in the application remain in full force and effect.

Sincerely,

GABRIEL WADE

Director /
