13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

OXY USA Inc. respectfully requests to amend the approved APD and change the well number for API No 30-015-45389 from the Sterling Silver MDP1 33-4 Federal Com #176H to the Sterling Silver MDP1 33-4 Federal Com #7H. Due to spacing changes this well will be drilled and completed in the 2nd Bone Spring instead of the Wolfcamp formation and the bottom hole is moving east 110' from the current location.

See attached for the Amended C-102 plat, drill plan, directional plan and plot and supplemental form.

API number is now correct.

14. I hereby certify that the foregoing is true and correct.
