**Subject:** BTA Pardue "C" 8808 JV-P Well #1 facility cleanup

Ben,

I have reviewed the requests to plug groundwater monitoring wells MW-12, -13, and -14 along with removing the well monument on the plugged SWD well as part of the soil reclamation efforts at the facility. Both these requests are approved under the condition that those efforts be completed as described. A properly completed and signed C-103 sundry notice should be filed both with myself and the District II office in Artesia for the disposal well once work has been completed. Please keep a copy of this email for your files as no written approval will be sent. Thank you.

Depending upon the time when a groundwater restoration program can be provided to the OCD for review and approval, the upcoming hearing on November 18 can be rescheduled. Please contact Gail Macquesten, Glenn VonGonten, or myself in that regard.

**Unit N (SE/4, SW/4), Section 11, Township 23 South, Range 28 East NMPM**  
**Eddy County, New Mexico**

Dear Mr. Griswold,

This exemption request is submitted to the New Mexico Oil Conservation Division (OCD) to allow BTA Oil Producers LLC (BTA) to remove the plugged well monument on the Pardue "C" 8808 JV-P Well #1, with API #30-015-26341, and cut off the surface casing at a depth sufficient to place the well below the bentonite and polyethylene liner to be installed at approximately 5 feet below ground surface. A steel plate inscribed with the well information (i.e., well name, well owner, API number, footage from section line(s), unit letter, section number, township, range and plugging date) will be welded to the top of the well casing. Your approval of this request is appreciated. Please contact me if you have questions.

Sincerely,

BTA Oil Producers LLC

Ben Grimes  
Operations Manager
