13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Field Name: Avalon; Morrow & Avalon; Upper Penn North

Fasken Oil and Ranch, Ltd. requests a shut in status for the above well. With the gas market as weak as it is, it is uneconomic to produce. Please see attachment of the production history from the last 12 months. We plan to return the well to production when it becomes feasible to produce.
