Section 2, T18S, R27E
Eddy County, New Mexico

Dear Bryan:

In reviewing the requirement of an H2S contingency plan on the above referenced well we have determined the following: The nearest paved road is approximately one-half mile away from the proposed location. The ROE is determined to be far less than the one-half mile distance to the paved road, therefore we do not believe that a contingency plan is necessary.

If you have questions or need further information, please call.

Sincerely,

Melanie J. Parker
