13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work and approximate duration thereof. If the proposal deepens directionally or recompletes

Devon Energy Production Company applied for and received approval on July 11, 2006, to set and operate a field office on this location. In order to enhance the operational functions of this office, we will be raising a 65' instrumentation tower to bring in lease operation data and provide emergency network backup. We will use non-FCC regulated spread spectrum radios in the 'ISM' bandwidth for this installation.

14. I hereby certify that the foregoing is true and correct
